**InsureSign // Front End Developer**

5/17-present

Involved with design, architecture and development of new features using AngularJS, AWS and ReactJS. Led architecture and core development for tablet based In Person Signing application using React and Material UI. Currently working with development team porting legacy desktop application over to a web-based platform using AngularJS.

**Omega Grid // Consultant**

7/17-present

Lead developer building out core features and architecture for blockchain energy platform using VueJS, Mapbox and D3 visualizations. Developed consumer web-based application for token generation for Burlington, IL.

**Moovila // Senior UX Engineer**

11/15-5/17

I lead UI development from creative hand off to building pixel perfect code using Bootstrap, Sass, and JavaScript in an agile environment. I worked with the creative team to develop and implement a Moovila branded UI kit of styled components integrated throughout the Moovila product suite.

**Uptake // Senior UI Developer**

10/14-11/15

Liaison between UX and Engineering teams. Led UI development of functioning AngularJS kit prototype for integration into Uptake's platform. During vertical expansion, I worked with each team to deliver core features by combining my development skills.

**iRLabs, SHC // Senior Web Designer**

7/13-10/14

Led art direction and design of In-Vehicle-Pickup, Try On, Kmart Companion, and Shop'in applications for mobile and kiosk. Interviewed and managed small team of designers to accommodate UX/UI need for expanding Shop Your Way® to in-store kiosk network. Involved with implementation and testing of applications. Led initiatives to streamline and enhance in-store experience for Sears and Kmart customers while also focussing on preserving brand integrity.

**Walgreens // Freelance Web Designer**

2/12-7/13

Worked with product leads, business analysts, and onshore/offshore development teams to enhance dot-com and mobile experiences through agile work streams. Designed and tested various pilot programs to streamline customer experience. Built custom WordPress theme, Walgreens Happy and Healthy Blog.

Celtic Marketing, Inc. // Interactive Art Director

12/06-12/09

Worked directly with Creative Director to design and implement marketing solutions through print, interactive, and mobile devices. Gave artistic direction to in-house design team. Managed outside vendors. Assisted Traffic Manager in ensuring deadlines and estimating jobs.

Canright & Paule // Associate

4/04-5/05

Designed brochures and marketing collateral for various clients.

DPKgraphics, Inc. // Consultant

Ongoing

Designed print and interactive campaigns for Hyatt, National City®, @Properties®, and Ultra Stores, Inc. Produced UX/UI designs and interactive sales modules for Levy Restaurants, SIEMENS™ SNM 2006 and SNM 2007. Provided rich media banner ad creative direction and production to StarCom for the national launch of Ally Bank. Spearheaded dot-com and mobile digital rebrands for Chop't Salad Company, DriveTime™, Hospitals in Pursuit of Excellence™, and Ultra Stores, Inc.
